PRASANTH ANANTHAN

Graduate Software Engineer | AI / ML Engineer

London, UK (flexible across the UK) · anathanprashanth@gmail.com · github.com/PrashanthAnanthan · LinkedIn · prasanth-ananthan.vercel.app

PROFILE

First-Class BSc (Hons) Applied Computing & AI graduate with hands-on experience building and deploying cloud-native AI/ML applications end-to-end — from REST APIs in FastAPI to containerisation with Docker and deployment on AWS and Vercel. Confident in Python with working knowledge of Java, JavaScript/TypeScript and SQL. Strong interest in cloud platforms, LLM agents and production ML. UK Graduate visa — no sponsorship required, available immediately, open to relocating anywhere in the UK.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript / TypeScript, SQL, C++
AI / ML	Machine Learning, Deep Learning, NLP, BERT, LLM APIs (Anthropic Claude), AI agents, MCP, model evaluation, classification & regression
Backend	FastAPI, REST APIs, microservices basics, Node.js, serverless functions
Cloud / DevOps	AWS, Vercel, Netlify, Docker, Git / GitHub, CI basics; interest in Azure, GCP & Terraform
Frontend	React, Streamlit, HTML / CSS / JS
Data / Tools	SQL, MongoDB, Pandas, NumPy, Scikit-learn, Postman, VS Code, Linux

KEY PROJECTS

Zyron — Personal AI Assistant (Private) *Python · Claude API · MCP · Voice*

- Built a Jarvis-style personal AI agent running across laptop, phone and iPad with voice interaction, long-term memory, Chrome control and screen awareness.
- Designed smart model routing — Haiku for lightweight chat, Sonnet for CV writing, job matching and technical reasoning — cutting daily cost from ~£6 to ~£0.15 without losing quality.
- Integrated 60+ tools via Model Context Protocol (MCP) for jobs, email, file ops, browser automation and daily brief / job-hunt / CV routines.

Portfolio AI Assistant — Live Cloud Agent *React · Claude API · Netlify Functions*

- Deployed an interactive AI agent on live portfolio site answering recruiter questions about my skills, projects and background in real time.
- Integrated Anthropic Claude API via a secure serverless function (API key stored server-side, never exposed to the browser).
- Live at prasanth-ananthan.vercel.app with CORS, request validation and graceful error handling.

Resume Analytics Platform — NLP & Semantic Matching *BERT · FastAPI · Docker · Streamlit*

- Built an end-to-end system that matches and ranks CVs against job descriptions using semantic similarity.
- Implemented NLP pipeline for parsing / cleaning unstructured resume data; used BERT embeddings for scoring, reaching 90%+ ranking accuracy.
- Shipped a REST API in FastAPI, containerised with Docker, and a Streamlit UI for interactive use.

MediCheck — Medical ML Pipeline *Python · FastAPI · Docker*

- Developed a machine-learning pipeline for classifying and analysing medical datasets, served via FastAPI for real-time inference.
- Containerised the application with Docker for deployment consistency; added logging and monitoring to track model performance.

WORK EXPERIENCE

Software Engineer (Part-time) *Dec 2024 – Sep 2025*

Life Saver Training Institute — Sri Lanka

- Developed and maintained frontend and backend components of the institute's web system, including booking forms and user-management pages.
- Built and improved the training-session booking flow, strengthening form validation and resolving a bug that caused some bookings to fail to save to the database.

• Supported API integration between backend and frontend, tested endpoints with Postman before deployment, used Git for version control, and reduced page load times through frontend-rendering and API response improvements.

EDUCATION

BSc (Hons) Applied Computing & Artificial Intelligence — First Class Honours *Sep 2025 – July 2026*

University of Hertfordshire, UK — one-year top-up (GPA 3.38)

Modules: Machine Learning, Software Engineering, Databases & SQL, Data Structures & Algorithms, Probability & Statistics.

Higher National Diploma (HND) in Information Technology *2023 – 2025*

Sri Lanka Institute of Information Technology (SLIIT)

CERTIFICATIONS & CONTINUOUS LEARNING

- Machine Learning Specialisation — DeepLearning.AI (Andrew Ng).
- Deep Learning Specialisation — DeepLearning.AI (in progress).
- Building toward AWS certification through self-directed cloud and deployment projects.

ADDITIONAL INFORMATION

Work authorisation: UK Graduate visa (no sponsorship required). **Languages:** English, Tamil. **Availability:** Immediate, flexible across the UK.
